LICENSE OF TYRONE HOTEL REVOKED BY JUDGE BALDRIDGE

Judge Thomas J. Baldrige, at a session of Court in Hildesburg Monday last sentenced Walter Waple, of Tyrone, on a charge of selling liquor without a license, the defendant being given the choice of paying \$1,000 fine and 3 months in jail or \$500 and four months in jail. Walter Waple is the son of Charles Waple, proprietor of the Ward House, Tyrone, and was convicted of the illegal liquor sales at the recent term of criminal court.

The license of the Ward House was also revoked by Judge Baldrige.

STATE LIBRARIAN RESIGNS. (By United Press) Harrisburg, Pa., Nov. 1.—Thos. L. Montgomery, state librarian, resigned today in a letter to the governor. The resignation will take effect December 1. Montgomery was elected yesterday as Librarian of the Historical Society of Pennsylvania.

"NEVER AGAIN WAR" IS THE SLOGAN OF NEW GERMANY—FED UP ON BLOODSHED

France's Fear Of A New German Invasion Is Termed Senseless Bugaboo By Expert

By CARL D. GHOAT.

(United Press Staff Correspondent.) NEW YORK, Nov. 3.—"Nie Wieder Krieg"—"Never again war."

This is the slogan of an ever-increasing army in Germany, the cry of men who have come to a realization finally that war is a losing game for all concerned; the appeal of women who suffered through the German "turnip winter"; the call of children cheated of their rightful heritage—a sound body—through war shortages.

Fed Up on War

Germany, as a whole, doesn't want any more war—not this generation at least. It is fed up on war.

This is my firm conviction after talks with men in all walks of life in Germany the past two years and a careful observation of the trend of thought and affairs in the new Germany.

France's alleged fear of a new German invasion is, at the moment, a senseless bugaboo, according not only to Germans, but also to English officers.

The one thing that can make that fear an actuality, according to many authorities, is a further growth of "French Chauvinism and militarism."

France Vindictive

Germany—undoubtedly forgetting the ravages her armies made in France—fails perhaps to see the ground for French anxiety and bitterness. On the other hand, the conviction is setting even deeper in the German psychology, that France, if unhindered by England, would dismember Germany, leaving her a bloodless land, without economic strength. Germany is bitter over France's play in Upper Silesia. Germany resents constant

Live on Chestnuts.

In the mountainous districts of Auvergne, the Pyrenees, and Corsica the inhabitants have rarely any other fare but chestnuts; these supply the absence of cereals or the deficiency of grain. Crushed into meal, they make a nutritive porridge with milk, or appetizing cakes, or are prepared as soups, since the meal contains gluten.

HOW THE STATE FUNDS NOW STAND

Harrisburg, Pa., Nov. 3.—The statement of the state treasury for the month of October, made public today, showed \$262,623.20, now in the general fund. October receipts were \$2,714,005.05, while payments for the month were \$4,761,755.94. Total balance for October 31 was \$5,844,069.37, compared to \$10,403,730.26.

Another Old Soldier Passes To The Grave

F. H. Shirey, died at his home in Girard township, Monday night, at 12 o'clock, after an illness of four weeks. He fought in the Civil War and was aged 77 years, 8 months, 5 days.

He leaves to mourn his death, a wife seven sons and three daughters, Mrs. L. L. Graham of Clearfield, Mrs. Howard Dixon of LeCentres Mills, Mrs. Elmer Leigay of the Knobs; A. I. of Tyrone, Elsie, Norman, Raymond, Boyd, Jesse, and Thomas, all of LeCentres Mills.

Funeral services at Congress Hill Church Friday afternoon at 2 o'clock. Rev. Van Note officiating.

PLAN NEXT YEAR'S FARM BUREAU WORK

Group conferences, where the farm bureaus of four to seven counties gather at a central point and discuss plans for the coming year, started last week in the northern Pennsylvania counties. M. S. McDowell, director of agricultural extension at the Pennsylvania State College, with several of his assistants attended the meetings last week in Du Bois, Warren, Williamsport and Scranton. During the second and third weeks of December similar conferences will be held in Sunbury, Allentown, New Castle, and Washington, drawing farm bureau members from each of these respective sections.

Was Almost Equipped.

Wesley had been teasing his dad for a bicycle; his father, thinking him too young, refused. Wesley came into his house one day all excited after he had been trying to ride his dad's bicycle saying: "I can have one now, father I know everything there is to know about a bicycle and I can do every thing on one but steer myself."

ADRIAN FURNACE STACK LIGHTED

DuBois, Pa., Nov. 2.—Tuesday morning at 9 o'clock, Mrs. Frank St. Clair, wife of the general manager of the Adrian Furnace company, of this city, lighted the fires that mark the formal resumption of work at this industry. This means that the furnace has resumed work after an idleness of nine months.

Greatness of Culture. The greatness of culture are those who have a passion for diffusion of knowledge, for carrying from one end of society to the other, the best knowledge, the best ideas of their time, and who have labored to disseminate it, and that was harsh, uncomplimentary, abstract, professional exclusivity, to humanize it, to make it efficient outside the clique of the cultured and learned, yet still retaining the best knowledge and thought of the time, and a true source, therefore, of sweetness and light.—Matthew Arnold.

Has He Found A Cure For Asthma?

Simple Prescription Gives Instant Relief, Makes Breathing Easy

In New England, where Bronchial Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidaze, a physician's prescription.

Oxidaze is a harmless but powerful combination of curative essential oils concentrated and compressed into a small tablet. One of these tablets slowly dissolve before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating spasmodic lung action. This enables the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including Blooms Drug Store have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this new treatment fails to give relief. Oxidaze is pleasant to take, contains no harmful, habit forming drugs and is not expensive. This makes their test an easy matter.

It is not surprising that clouds come in for more or less criticism. They live high, are often dissipated, and can usually be chased with the wets.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 35c.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Saddling the Tax on

the Nation's Farmers
Newark, Del. Nov. 3.—Lower crop and food production and higher living costs were predicted today by Prof. George L. Schuster, agronomist of the Delaware Agricultural Experiment Station, here, if the proposed five year graduate duty on the importation of potash for fertilizers is inserted in the Emergency Tariff Bill, or remains in the Fordney Tariff Bill.

Based on the present use of Potash, the proposed duty would cost the Delaware alone \$192,850 in five years, Prof. Schuster pointed out. He added, however, that the farmers would never pay the duty and would instead use 500 tons less potash annually although "our potash applications are already too low for economic crop returns."

The Delaware agronomist is decidedly opposed to the potash duty and denounces the idea of applying it to protect the domestic potash industry.

"American producers of potash produce it largely as a by-product except two or three in the far West," he said, "and the freight rates make its use prohibitive in the Eastern borders. Those producing potash as a by-product get their main income from other sources, why protect them. The industry in America, like that in England, grew up during the war under war conditions, but now that these conditions are over we must get back to normal and all classes should share alike in the readjustment. If our Government wants to protect our potash industries, why not subsidize

it rather than pass a tax, 90 per cent. of which one class of people—the farmer will have to pay?

FARM CALENDAR

Timely Reminders From The Pennsylvania State College
Sanitation—Before bringing the cattle in off the pasture, make sure that the barns are cleaned and free from lice. If there is evidence of lice on the cattle they should be properly treated.

Buy Potato Seed—This is the best time of the entire year to lay in a good supply of first class seed potatoes. The prices are lower than they will be later on and yield figures can be observed. See your county agent and have him get the best seed for the community.

Housing Machinery—All machinery for which there is no further need should be housed and protected from rain and snow. Working metal parts such as plow bottoms, cultivators, shovels, binder needles, etc., should be coated with heavy grease to prevent rusting.

Orchard—Many farmers are expecting a hard winter. Valuable fruit trees are likely to be girdled by mice and rabbits if deep snows lay on the ground for a long period. Remove grass from the base of the tree and mound a little earth around it; this will help to prevent injury by mice. Close mesh wire, tar paper or wood veneer bound with tarred string around the trunk to a height of twenty inches will give protection from rabbits.

ODDS AND ENDS AND THINGS

"By Skisney"

The people of this section who are interested in having the State road built between Sandy Ridge and Tyrone will be pleased to read the following extract from a recent letter by Governor Sproul in defense of the State Highway Department. The Governor in speaking of the \$50,000 road fund says:

"The \$50,000,000 road loan has not all been expended. We are just about to advertise for the sale of \$11,200,000 of unissued bonds from this fund and all told, probably not two-thirds of the total issue has as yet been reflected in finished highways. In the second place, instead of only 886 miles of highway having been completed, more than twice that mileage has been finished and is open to public travel; this year alone more than 625 miles of concrete highways have been completed, last year 410 miles were completed and all told close to 2000 miles will have been completed before the State Bond Fund has been exhausted."

Out in Lewistown, Maine, they have a child healer in the person of Charlotte Lariver, three years old, who but touches a suffering person, "hisps a short prayer" and the suffering stops instantly. It is said "the healer" is sure death on coughs, colds, burns and toothache.

Those European "big guns" who are coming over here to attend the limitation of arms conference, can get as full as they can stick and nobody will say a word about it. The prohibition rules have been suspended as to the government of the appetites of our guests and they will be privileged to buy all the hooch they can pay for and then drink it or leave it alone. If it is like some of that "Canadian" liquor they are peddling around thru these parts at \$90 per case, we'll bet they will leave it alone after sampling the stuff.

General Pershing says that Sergeant Samuel Woodfill, of the Regular army was the bravest American soldier in France, after a search of the records of all the officers and soldiers who served during the war. Here is "all Sergeant Woodfill did to entitle him to that enviable distinction:

On Oct. 12, 1918, near Cuneil, France, during the Meuse-Argonne offensive, Sergeant Woodfill, then a Lieutenant, cleaned out three machine gun nests, silencing the guns and killing nineteen Germans, including one officer, and capturing three others. Fortune smiled on Woodfill, who escaped without a serious wound, although he faced four Germans at one time, an unnamed number at another, five in a fourth engagement and finally killed two more with a pick.

Woodfill had been sent out by his brigade commander to locate the enemy's line. He actually located it when he came across the first machine-gun nest, but could not be certain and pressed forward after killing the four men manning that gun.

He had just killed five Germans in a third machine-gun nest and was about to jump into the pit with drawn revolver when two other Germans turned their weapons upon him at short range. Failing to kill them with his revolver, Woodfill seized a pick which was lying close by and smashed the heads of both.

CAVE MAN TACTICS RESULT IN SUIT FROM CHESTER HILL

Suit Filed Alleges Antonio Marcello Assaulted Mrs. Sebastiana Pristipino With A Heavy Club

Over in the little Clearfield county town of Chester Hill, immediately adjoining Philipsburg, the male citizens are not so gallant as 1921 ethics would have them, and on occasions resort to ancient cave man tactics in subduing the female of the species. We are informed that such tactics are not considered altogether passe even among Chester Hill's "upper crust" when confined strictly to the females within the club wielder's own family circle, but was onto the native or otherwise who jumps upon the wife of some other fellow's bosom and proceeds to correct her with a club.

We are moved to make these observations as to the domesticity and customs incident thereto in the district named by a perusal of certain papers filed in Prothonotary Ralston's office this morning by Attorneys Chase & Chase. These papers show that Caramello Pristipino and Sebastiana, his wife, have entered suit against one Antonio Marcello, in which the Pristipinos seek to recover the sum of \$2500 from Marcello on account of injuries he

inflicted on Mrs. Pristipino. The statement filed with the suit goes on to state that on October 28th last past Marcello assaulted Mrs. Pristipino with a club, breaking her right arm between the wrist and elbow, during a battle between the two families.

Varities of Spiders' Webs. The common house spider spins a web quite different from that of the garden spider. The house spider's web consists of a silken tube hidden in a dark corner, with an irregular sheet of closely woven meshes spread before it. The tube is the spider's lurking hole and place of refuge; the outspread web is its snare. The wolf spider makes a tubular hole with a finger door for a refuge and spreads no snare. Still another species of spider constructs a far simpler tube of silk without any lid or door.

Prolific Sturgeon. The Russian sturgeon, known as beluga or Albus, is very large. It has been known to grow to the length of 23 to 25 feet and to weigh 3,000 pounds. At spawning time, a female produces from 2,000,000 to 3,000,000 eggs, constituting from one-third to one-half of the entire weight of the fish.

Oil Can Grip. A piece of sheet metal bent roughly in the shape of a buffalo's horn, with a hole punched in the center so that it will fit under the spout, which is then screwed in place, makes an admirable finger grip and enables the operator to pour the oil more accurately.

Children Who Need Cod Liver Oil Will Take Vinol

Because it contains no oil, but does contain all the medicinal elements which have made Cod Liver Oil famous, together with vegetable iron and other up-building ingredients especially favorable for children. Many children in this city have been restored to robust health by taking Vinol, and we ask any mother who has a delicate child to try it on our guarantee that it is perfectly harmless, and if it does not help the child the druggist will return the full purchase price.

For a hundred years the medicinal elements contained in the cod's liver and oil have been regarded as the safest and best strength and body building medicinal agents known.

Many people, however—especially children—cannot take cod liver oil because of the nauseating oil. In Vinol they get all the medicinal value of cod liver oil and emulsions in a delicious tasting form and entirely free from oil—agreeable to the most delicate stomach—therefore it is better. If you have a delicate child, give it Vinol. Knowing that it has helped so many other children, you owe it to the child.

Only Four Puffs. Recently Dick, age eight, became terribly sick quite suddenly, and for apparently no reason. His mother tried every way to learn what he had been eating that could have caused his illness. Finally in a faint voice he said: "Mother, do you suppose four puffs on a cigarette could make me this sick?"—Indianapolis News.

The Joy of Warm Floors!

Are your floors warm?

Wouldn't you like to be perfectly sure that the kiddies can play on the floor without catching cold? An

INTERNATIONAL ONEPIPE HEATER

makes such fun possible in your home even on the coldest "blow" days. This scientific Onepipe Heater sends clean, healthful, moist heat into every room, upstairs and down.

Healthful heat and more of it than you get with stoves but with no coal to fetch up and no ashes to lug out.

Has only one pipe and one register, yet is more satisfactory than far more expensive heating systems in homes for which it is adapted.

Come in and see it today.

REPUBLICAN TICKET

The following are the candidates of the Republican Party to be voted for Tuesday, November 28th, 1921:

For Judge of the Supreme Court	For Treasurer
WILLIAM I. SCHAFER	GERTRUDE RUMBERGER
For District Attorney	For Jury Commissioner
JOHN C. ARNOLD	HARRY C. CONNOR
For Sheriff	For County Coroner
THOMAS J. LOWELL	DR. J. I. POLLUM

HARDING GETTING RESULTS

Practical benefits are flowing from the recent unemployment conference held in Washington under the leadership of President Harding. In the most densely populated area of the country, where the idle naturally are the most numerous, the month of September witnessed a marked increase in number of building contracts awarded. It set the record for all the months of this year and for all the Septembers since tabulation of building operations has been made.

This is a concrete achievement toward mitigating general business depression. But it is not all. There are revealed immense numbers of building projects in readiness for contracting that must have a marked psychological effect. Preparations for the boom which is bound to be felt next spring will be uplifting to every branch of trade. All of this must be highly disconcerting to the glooms who are always with us. Their powers of discouragement have lost a large degree of their potency. This is the real victory that the President has achieved. The essence of his faith that improvement might be forced through the medium of the unemployment conference was that the business depression was largely a state of mind. Events are proving that he was right. But he will not rest content with what has been accomplished.

Avoidance of a repetition of the conditions from which the country has suffered in the last year or so, is now his concern. To this end Secretary Hoover is expected soon to summon a meeting of the standing committee of the unemployment conference to begin a study of the seasonal and cyclical phases of the industrial problem. The objective will be the discovery of methods of spreading work opportunities equally over the lean and the fat years. This is a far more complicated proposition than that of starting production where there was pronounced unwillingness to undertake constructive ventures. Much experience cautions against confidence that the end sought can be achieved. But it makes no case for an advance conclusion against a successful issue of the effort. What has been recently done admonishes that "because a thing has not been done in the past is no proof that it cannot be done." The President is upsetting some old notions to the great benefit of the country. —Pittsburgh Gazette-Times.

NO MUD SLINGING, PLEASE

With this slogan uppermost in the minds of the many people interested in the election to be held next Tuesday, let the campaign proceed. Even though in the primaries, and since then, party lines have been broken to such an extent, that Republican—John E. Laing—is the Democratic nominee for County Treasurer, there has been very little evidence of unfair tactics in the general election race and although the race is near the end and waxing a little warmer, it is to be hoped that there will be no indulgence in last minute rumors such as have characterized campaigns in the past.

There are, however, outstanding facts which can be stated and re-stated and should be. It is due to the candidates themselves as well as the voters that all phases of the campaign be discussed.

The Progress hopes to present a clear-cut statement of the facts in forthcoming issues.

OUR NEXT PROBLEM

At the present time there is a waiting list of 514 persons for admission to the state sanitarium for the treatment of tuberculosis. The three state institutions, Cresson, Hamburg and Mont Alto, with a total capacity of 2,200 beds, are filled.

Many counties will vote on Tuesday on county tuberculosis hospitals and these counties are just so many years ahead of us. Meantime, the State Commissioner of Health says: "The fight against tuberculosis must begin with the child. Give him or her mother's milk or non-tuberculosis cow's milk, and protect against contact with tuberculosis patients who can not, or will not, take precautions against passing their infection to others. State sanitariums should train how to protect and to live, and should be filled with such cases as may be arrested or cured and returned to useful citizenship. Far advanced cases should be care for at home."

Meet British Fencers

Two probable members of the American fencing team visiting the British inventors in November. Major Harold Rayner is on the left, and Major Robert Sears on the defensive. Snapped in Washington.

LOW PRICES—TIMES
HARD—IN CHILE;
NO BUYING DONEFinancial Crisis Looked
To Stop Grand Opera
Season In South American
Republic.

(By United Press.)
SANTIAGO, Chile, Nov. 23.—(United Press)—It begins to look as if the present financial crisis will deprive Santiago of its annual grand opera season. The Chilean shares with his brother Latin an intensive love for grand opera but it is apparent that this passion is not equal to pawing the limousine or the family jewels in order to support an operatic season during a period of slack business.

The jewelry and art goods business here has also practically stopped. The only ones who appear to be buying diamonds and other precious stones are speculators or well-fixed bargain hunters, few in number, who are taking advantage in the fall of prices. Many wealthy and moderately-circumstanced Chilean families have placed their family jewelry with jewelers for sale. It is possible to obtain one-carat white diamonds as low as ninety or one hundred dollars in American money. American and British travelers are the principal purchasers of the diamonds.

Well made men's shoes, on snappy American style lasts sell from \$4 to \$6 a pair; tailor made suits of good woolen cloth at from \$20 to \$30, with overcoats at the same price; shirts of good materials at \$1.50 to \$2, and made to measure in the best shops for from \$3 to \$4. In spite of the low prices of clothing there is comparatively little buying. The period of business depression has caused such unemployment and wages are low.

MANGLED HAS A
CHANCE TO LIVE

Punxsutawney, Pa., Nov. 23.—Mary Soltas, or Bellas, whose scalp was torn off in the Punxsutawney Throwing Company plant Tuesday morning was still alive in the Punxsutawney Hospital Wednesday and has a chance to recover. Her pulse is strong and in spite of the horrible accident she never lost consciousness. It is the opinion of physicians who have examined the girl that death would be the most merciful solution of the terrible accident.

NEW YORK STOCKS

New York, Nov. 23.—American Sumatra Tobacco, 34 5/8; Baldwin Loco 90 1/4; Bethlehem B. 55 1/2; Crucible Steel, 62 1/8; General Electric 134 1/2; General Motors, 10 1/2; Middle States Oil, 14 1/8; Midvale Steel, 24 1/8; Willys Overland, 6.

Suppressing a Squawk
Recently it has been discovered at Macclesfield, in England, that a brake block on a car must not be by virtue of an old law, be allowed to squeak. A quarry owner was summoned for allowing a car to be driven without an appliance for lessening the noise caused by the brakes, and though he pleaded that the car did not make as much noise as many motorcars, he had to pay the costs of the prosecution. Macclesfield is a town where they make silk; will they some day discover that there is an ancient law forbidding silk to rustle?

Smoke Without Fire
"Smoking strictly prohibited" notices caught the eye of a commercial consultant who had been called in by a north of England firm to investigate and report upon the efficiency of its business methods and to suggest possible improvements. So soon as he saw the sign precluding the fragrant weed he commended: "Take all those notices down, paint them out. What self visitors think?" The factory was completely occupied for the manufacture of asbestos.

Wool of Australia.
The great superiority of Australian wool is supposed to be due mainly to climatic conditions; but no little credit is also due to the grasses and herbage upon which the sheep feed. The native grasses of Australia are looked upon as superior for pasture to exotic grasses; experience has inclined the opinion that way. They possess great reproductive powers, and there is very little necessity for reseedling.

An Exceptional Shoe Sale
For Friday and SaturdaySOME EXTRA SPECIAL BARGAINS IN
CHILDREN'S SHOES

Misses' Shoes, sizes 11 to 2, in Black or Brown leathers, regular \$5.50 and \$6.00 values at **\$2.95**

HANFORD M'NIDER
ELECTED CHIEF OF
AMERICAN LEGION

Convention Adjourns
After Long Session—
Col. Kerr Representing
Four Counties.

Kansas City, Nov. 23.—The national convention of the American Legion adjourned here last night after electing Hanford M'Nider of Mason City, Ia., national commander, electing other officers and adopting resolutions covering a wide range. The convention has been in session without a recess since early Wednesday morning.

Col. Kerr Local Representative.
Col. F. B. Kerr was the American Legion delegate to the Kansas City convention representing Clearfield, Cambria, Centre and McKean counties.

He was elected as delegate at the September convention of the American Legion held in Pittsburgh, and voted on all questions before the National convention as the accredited representative of the four counties.

Valuable People.
The value of a single man or woman of open mind, independent judgment, and moral courage, who requires to be convinced and refuses to be ejected, is only concerned to be right and not afraid to be singular, deferring to reason but not to rank, true to their own self, and therefore not false to any man—the value of such a man or woman, I say, is priceless; a nation of such would heaven and regenerate the world.—Professor James Ward.

GOITRE RELIEVED
Can Not Sleep Well—Carlisle Lady
Uses External Remedy

Note: It would be illegal to publish these statements if they were not true.
Mrs. Nora Beecher, R. No. 9, Carlisle, Pa., says in her own home paper, the Carlisle Sentinel: "I am so much better in every way. My neck has gone down almost level. You may use my testimonial. Before I could not sleep at night, was short of breath, my mind was not clear, I was nervous, I was a nervous wreck. I am glad to help others to find out about Sorbol Quadruple."
Sorbol Quadruple comes in small bottles containing enough for most cases. It will soothe and soothe. Does not interfere with regular work. Leaves parts in healthy, normal condition. Requires 20 minutes daily.
Get further information at Woodward & McPherson's, drug store, corner of 12th and Erie streets, Clearfield, Pa., or write Sorbol Company, Cincinnati, Ohio.

BABY LOSES EYE—
RESULT OF FALL
ON SHARP STICK

Punxsutawney, Nov. 23.—Louis Zellner, a two-year old son of Mr. and Mrs. Louis Zellner of Punxsutawney, had his eye punctured out yesterday while playing with a stick.

The little baby and an older brother were playing in the yard and the older of the two was chasing Louis who had a sharp stick in his hand. Louis fell and drove the point of the stick square into the center of the eyeball. Five stitches were required to close the eyeball but the sight is entirely gone and it is probably that later it will be necessary to substitute a glass eye for the ruined orb. The child was brought to the Adrain hospital here.

England Smaller Than Colorado.
The area of England is less than one-half that of the state of Colorado.

DR. LOUIS DAMMERS

Eyesight Specialist

COAL MINER RETURNED
TO STEADY WORK AGAIN

No More Layoffs for Otto Deitman—Nerv-Worth Restored Health.
A question that has baffled science, therefore, scientists, by breaking new ground, after leaves has been a complete standard, not by doing what with or without? Science and invention, said ages.
Punxsutawney, Nov. 23.—Otto Deitman, a coal miner who had been laid off for several months because of nervous stomach disorder, a general run-down condition, or their attending illness, Nerv-Worth a trial. Deitman, after first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. Remember, if you first trial, bottle in use, writes: "I am able to work steady, and I can certainly recommend Nerv-Worth for what it has done for me." Thus wrote Mr. Deitman who resides in the West End, Punxsutawney, Pa. The above statement tells its own story. If you suffer from nervous stomach disorder, a general run-down condition, or their attending illness, give Nerv-Worth a trial. YOUTH KILLS SELF

WHILE HUNTING
Butler, Pa., Nov. 2.—(Special).—Bert Seelbach, aged 17, son of Lewis Seelbach of Venango township, 20 miles north of this place, is the victim of the first hunting fatality of the season in Butler county. Young Seelbach tripped over a log while hunting on his father's farm, yesterday and his left arm was shattered by the accidental discharge of the shotgun. Surgeons amputated the arm, but the lad died at midnight from exhaustion and loss of blood.

'WARE WASTE AND WEAR WELL!

Human Bodies Are Poisoned by Their Own Waste. Most Diseases Are Preventable.

The human body has to be heated and food burned inside the body produced waste. All this waste should be removed from the body regularly, thoroughly, daily, by the eliminative organs, which are the bowels, kidneys, skin, and to get in harmony. These should be inactive extra effort is required of the others, which easily become deranged. Many medicines will force bowel action temporarily but the after-effects are harmful. Many remedies are advertised, some of which have proven year after year to be reliable, efficient, and without harmful action or effect. Take Beecham's Pills for example. For over 70 years Beecham's has been a household word all over the world. 70 years of use by all sorts of folks, men, women and even children, has proven first, that Beecham's Pills do what is claimed for them; second, that they are harmless, do not produce bad effects. Some medicine forces Nature to unnatural action. Other medicines like those contained in Beecham's Pills assist Nature, reduce no harmful suade and hence produce no harmful effects. It is common to find families in which Beecham's have been used by several generations, their use handed down from father to son and from mother to daughter. That's the best possible recommendation for any remedy. Every druggist sells Beecham's, is glad to because he knows that their reputation has been won by merit.

FRESH FISH FOR FRIDAY

We're expecting a great array for you. There will be all the good ones that can be gotten in this country and they're bound to come through in good shape on account of the sharper weather. Why not call us on the phone and have us save you a good one as soon as they come in?

THORN BROS.

THE SECRET OF BABE RUTH'S SUCCESS!

Scientific tests prove that the greatest baseball batter of all time is due to his supernormal eye. "Babe's" eyes are quicker than those of the average man by 12 per cent; only one person in 500 has such steady nerves. Ruth's success clearly demonstrates the advantages of good vision—of steady nerves.

Where Ruth's eyes are above normal, the eyes of most men are 70 per cent—below normal—and they don't know it! An eye examination may prove the turning point in your career.

Information For Sportsmen BY SETH E. GORDON, Secretary Game Commission.

Hunting Accidents Reported From All Over the State

Very Few Fatalities Recorded As Record
Breaking Number Of Nimrods Take Up
Guns In Pursuit Of Elusive Game

The first and only hunting accident to be reported among Clearfield hunters for this season comes from the Third Ward. Merle Cochrane, the seventeen year old son of Mrs. Arny Cochrane, was out hunting rabbits on Tuesday. A rabbit was startled and when in line with Cochrane a fellow hunter took a crack at it with a shot gun. He got the rabbit, but two of the shot went with one hitting Cochrane in the knee and the other in the foot.

The injured young man was brought to his home where the shot were removed and he is but little the worse for his experience.

Three Gunners are Shot
Lancaster, Nov. 2.—Isaac Vahn, an electrical contractor of Philadelphia, was the first victim of the gunning season here. The shot gun of the companion Cera Bowman, was accidentally discharged and the "shot" struck Vahn in both legs. Bowman carried his wounded companion a mile and he was brought to a hospital where his condition is critical.

Shot In Leg
York, Nov. 2.—With the opening of the rabbit hunting season, Herman Lauber, twenty-three, suffered severe wounds in both hands and the left leg. A member of his gunning party shot at a rabbit and he happened to begin the path.

Wounded For Life
Lebanon, Pa., Nov. 2.—In Heidelberg township, near Shaefferstown, Harry Stahler, twenty-three, of Shaefferstown, was wounded in the right knee by his companion, Nathan Naftzinger, in shooting at a rabbit. The doctors hope to save the limb, but Stahler will be maimed for life.

Three Rabbit Hunters Shot
A Philadelphia and two other men were accidentally shot hunting rabbits in the woods about West Chester, Pa. They are Robert Pearl, West Philadelphia.

Great Healer For Sores, Cuts, Scalds, Burns and Bruises

Great Antiseptic Ointment Called
"San Cura" that Your Local
Druggist Sells on Money-
back Plan.

"Arm badly scalded with steam," writes Gilbert Hard of Elnard's Mill, Ohio: "San Cura Ointment relieved the pain at once and arm healed rapidly. It is a wonderful ointment!" Here's another: Ellis W. Frankenstein, Titusville, Pa., broke his leg; was in bed six months; discharged from hospital as incurable; was five years on crutches, while opening in leg continued to discharge pus; suffered terrible pains; San Cura Ointment drew out poisonous pus and many pieces of bone; now perfectly healthy; sore healed, and weight increased from 88 to 121 pounds.

San Cura Ointment is such a marvelous healing antiseptic ointment that it is sold on money-back plan. It relieves itching skin, tetter, eczema, salt rheum, old running and fever sores, ulcers, boils, carbuncles, sore nipples, piles, frost-bite, chilblains, catarrh and chapped skin.

John W. Cleary, O. D.
Optical Specialist
Woolridge Bldg., Clearfield, Pa.

Washington, Pa., Nov. 1.—The first day of the hunting season in Washington county exacted heavy toll, one hunter dying as a result of his wounds and another being slightly wounded.

Samuel Hopkins, who gave his address as Hazelwood, Pittsburgh, was wounded in the right foot this afternoon, when he pulled the trigger of his gun while it was pointed toward the ground.

Thomas Westerman, Jr., aged 17, of 714 Hazlett street, Brackenridge, lost the sight of his right eye and was otherwise injured yesterday afternoon while hunting at Donnellville, five miles from Tarentum.

NEW CASTLE HUNTER KILLED:

New Castle, Pa., Nov. 2.—(Special).—The first hunting fatality of the season occurred here this afternoon, when Harry Milliken, aged 18, while hunting in the Eastbrook district with Frank Kennedy, was killed by a shot from his own gun, while he was using it in an attempt to stir up rabbits in a pile of brush.

delphia; Jesse March, West Chester; and Charles Knight, Ardmore. Pearl is in the Chester county hospital with wounds of the body; March was able to go home after treatment and Knight is in the same hospital with a severe wound in the right shoulder.

Victim Of Careless Hunter

Punshatney, Pa., Nov. —William Black of this place, was painfully, but not seriously hurt when he received a charge of scattered shot. At the noon hour Mr. Black with his companions found a sheltered spot to consume a lunch. A shot was heard close by and Mr. Black did a near somersault. An inventory developed that he had received several shot in the region of his left hip pocket and one in his left arm near the elbow.

Attempts to Club Coon—Is Shot

DuBois, Pa., Nov. 3.—James DeAngelo, of Brockwayville, is in the DuBois Hospital in a very critical condition as a result of the first hunting accident of the season. DeAngelo was out hunting coons Tuesday morning near Brockwayville and his dog located its quarry. The dog and the coon mixed up in a melee and in the excitement DeAngelo started in to club the coon with the butt of his gun. The gun was loaded and when the stock of the weapon struck the trigger was pulled, sending the entire charge of one barrel into his hip, tearing a gaping wound.

The injured man was taken to Brockwayville and given first aid. He is being brought to the DuBois Hospital where an operation was performed in the hope of saving his life. It is regarded as extremely unlikely that the man will recover, as he suffered much from loss of blood.

Hunter In Serious Condition

Indiana, Nov. 3.—Leroy Huber, son of Mr. and Mrs. Thomas Huber, of near Grove Chapel, is a patient in the Indiana Hospital, possibly fatally injured, as the result of being accidentally shot while making his first hunting expedition of the season. In company with his uncle, Ray Zehner, the young man was working the fields in the region of Campbell's Mills. His dog scared up a rabbit and the animal was shot with a bullet from Huber's gun. Just at the same time another hunter on the hill a short distance away fired his gun and two of the bullets entered Huber's body, one just below the heart.

Hunting Victim Dies

Washington, Pa., Nov. 1.—The first day of the hunting season in Washington county exacted heavy toll, one hunter dying as a result of his wounds and another being slightly wounded.

Samuel Hopkins, who gave his address as Hazelwood, Pittsburgh, was wounded in the right foot this afternoon, when he pulled the trigger of his gun while it was pointed toward the ground.

Thomas Westerman, Jr., aged 17, of 714 Hazlett street, Brackenridge, lost the sight of his right eye and was otherwise injured yesterday afternoon while hunting at Donnellville, five miles from Tarentum.

NEW CASTLE HUNTER KILLED:

New Castle, Pa., Nov. 2.—(Special).—The first hunting fatality of the season occurred here this afternoon, when Harry Milliken, aged 18, while hunting in the Eastbrook district with Frank Kennedy, was killed by a shot from his own gun, while he was using it in an attempt to stir up rabbits in a pile of brush.

Counties Closed To Hunting

In addition to information recently given in circular letter warning sportsmen that no additional seasons open until November 1st, attention is called to the fact that while the summary on the back of the license gives the open seasons for the State at large, that summary does not apply to counties that may be closed to game of various kinds.

A list of counties closed was sent out sometime ago. According to correspondence many sportsmen noticing from the headlines that various counties are closed to "pheasants" take it for granted that the counties referred to have been closed to the native ruffed grouse, commonly called pheasants, while in fact only a few of the southern counties where there are but few ruffed grouse, have been closed to these birds. Counties in the central and northern part of the State are closed only to the imported ring-neck pheasants and not to native grouse. Thousands of these lists are being sent to the Co. Treasurers, sportsmen's organizations, etc., as rapidly as received from the State Printer.

Because of the pressure brought to bear to have the pamphlet laws (giving all the laws of the 1921 session of the Legislature) printed as quickly as possible, indications are the pamphlet containing the game, fish and forest laws will be still further delayed, and may not be ready for distribution until the middle of November or later.

New Bag Limits

Special attention is called to the new bag limits on game of various kinds, as each hunter will note by carefully reading his license. The material changes in bag limits are:

- 1st. Reducing the daily bag on rabbits from 10 to 5 with the reason limit remaining at 50 as heretofore.
- 2nd. Reducing the bag on ruffed grouse, commonly called pheasants from 4 per day to 3 and from 24 for the season to 15.
- 3rd. Reducing the bag on ring-neck pheasants from 4 per day to 3, and from 10 for the season to 6 in the counties of Allegheny, Clearfield and Erie.

These changes will observe the game laws strictly, and it is to be hoped that they will result in a better hunt for all sportsmen. We must also bear in mind that a good future hunt is dependent on each attempt to kill the limit of various kinds of game.

Single Bullet Only For Bears

The last Legislature changed the law on bear hunting, season November 1st so that bears may be killed as game with a single bullet only as has been the law on deer for a number of years past. Those favoring this change in the law claimed that bears were badly wounded with shot, sometimes leaving them to crawl off and die, and in other instances simply maiming and maiming the animal, causing it to attack the person doing the shooting—the only provocation under which a black bear will ordinarily attack a human being. The past practice of small game hunters shooting bears with shot is therefore illegal, being punishable by a penalty of \$50.00 for each offense.

Prevention of Forest Fires

Fortunately the vast majority of our sportsmen realize that one of the "burning questions" of game protection in Pennsylvania is to prevent forest fires. Sportsmen have in the past been erroneously charged with responsibility for many of the fall forest fires, and the best way to overcome this prejudice is to take an active, individual interest in preventing fires, and to at once report to the nearest fire warden if a fire occurs that cannot be extinguished immediately by the person or persons discovering same.

Feeding Game

While doing your hunting in the time to make arrangements for the building of shelters from corn fodder, brush, weeds, etc., in which to feed game, especially birds of various kinds, as well as to arrange to supply necessary feed during the coming winter. Do not overlook the squirrels as they will appreciate corn if nuts are scarce as they are in most sections this year. If you desire aid in the purchase of feed your Game Protector will gladly help you.

Respectfully yours,
SETH E. GORDON
Secretary Game Commission.

Indian Cotton Cloth.

Indian cotton cloth is mentioned by Herodotus, and was known in Arabia in the Seventh century. In Spain cotton was quite extensively grown and manufactured in the Tenth century, but its manufacture was not introduced into other countries until some centuries later.

THE SCREEN IN REVIEW
(By CHARLES BEAHAN)

"PETER IBBETSON"

"Peter Ibbetson," adapted from Du Maurier's novel is Paramount's latest feature of importance. It is not exactly a true adaption, but then a photoplay rarely is. The picture has a poetic charm which lingers through out the production; there are sunshine, laughter and tears which sway the audience as the picture wills.

The story opens with the little three-year-old Peter Ibbetson in the garden of the Pasquiers in Paris when Peter is the wee boy, Gogo, and the Duchess of Towers is his little neighbor and sweetheart, Mimi. Here Peter and Mimi first learned to dream true, taught by Major De Quenois—that delightful old veteran of the Napoleonic wars—the lesson that so ably serves the boy and girl in the long years that follow, and the story unfolds itself gradually in a most interesting manner.

A most touching bit is done by George Fawcett—who is always a

treat to the screen—as Major De Quenois. When she goes into the Quenois, grown old and feeble-minded, Elsie Ferguson is a bewitching air and sunshine make the most charming Duchess, grown old. Wallace Reid, plus a marcel, is a youthful and a sad looking Peter. It is hard to become accustomed to a sad Wally Reid, but his performance is creditable. As a whole, the picture is well cast.

CAMILLE

Camille has realized her long-cherished ambition to appear as the indestructible Lady of the Camellias, and if she had acted as well in the earlier scenes as she did in the latter ones she would have cause to be proud of her achievement. At the Quenois—that delightful old veteran of the Napoleonic wars—the lesson that so ably serves the boy and girl in the long years that follow, and the story unfolds itself gradually in a most interesting manner.

A most touching bit is done by George Fawcett—who is always a

"BITS OF LIFE"

With four stories on his hands, each an obvious plot for a movie drama, but each too short to make one of five reel length, Mickey Neilan hit on the plan of combining the four independently in one standard film, and giving no excuse for the volume as a publisher would issue a volume of selected short stories. The re-

tail is "Bits of Life," and with Neilan's staging and some very capable actors, it makes a surprisingly entertaining show. The stories chosen are "The Bad Samaritan," "The Man Who Heard Everything" from Smart Set; "Hop" by Hugh Wiley, and "A Strange Adventure" by Mickey himself. Not being extended beyond justifiable length, the stories make compact, amusing little dramas. It should be added that Lon Chaney, is the villainous Chink in "Hop," gives an exceptionally brilliant characterization.

MOTHER CALLED TO BEDSIDE

E. M. Keith, a former Clearfield resident, is seriously ill at his home in Conneaut, Ohio, at present. His mother, Mrs. M. J. Keith and son Dale of Philipsburg, have been called to his bedside.

"Three Wise Fools"
Next Show At Driggs

Geo. H. Degnon, representing John Golden's record-smashing success, "Three Wise Fools," which will be the attraction at the Driggs Opera House on Tuesday night, Nov. 15, was in town on Tuesday and called at The Progress office. Mr. Degnon says that John Golden, who is sending "Three Wise Fools" to Clearfield, is also the producer of "Lightnin'," which recently closed a three years engagement at the Gaiety Theatre, New York. If the engagement of "Three Wise Fools" prove successful Mr. Golden has promised Mr. Driggs, Manager of the Opera House, a date with his "Lightnin'." The prices for the engagement of "Three Wise Fools" have been set so they are within the reach of all, ranging from fifty cents to two dollars. The attraction is guaranteed by both the producer and Mr. Driggs, with the understanding that if any one is dissatisfied after seeing the performance the purchase price of tickets bought will be refunded.

Printing in America's Early Days. The first printing press in New England was set up in Cambridge in 1639. The first book printed was the "Prayer Book for New England," and the first the presses running in Boston in 1710. It is very probable that during that 90 years from 1639, numerous books were printed.

Point of Interest Screened. The haunts of the dinosaur in the Red Deer valley in Canada, have been screened by the department of trade and commerce. The place where these relics of millions of years ago are found is about 100 miles east of Calgary, in a canyon of the Red Deer river, which is just as beautiful as the Grand canyon, but about one-seventh its size. It is the only place in Alberta where the cactus grows.

WE TURN THIS INTO THIS

So often people say, "but I can't afford laundry service." Can you really afford to be without laundry service? Think it over for a moment—when you do washing at home there's the tax on your time, on your strength, on your health, on your peace; there's the laundress to supervise and pay—a dozen irritating little things to worry and tire you. Can you honestly afford it?

With this service of ours you simply bundle up the washing and call us fifteen minutes at the most—all the old annoyances removed, you gain more leisure time for pleasanter home duties—and above all, a thorough, economical laundering service that will please you.

We can wash and iron everything; or wash everything, iron the flat work, and leave the lighter pieces for ironing at home—whichever you prefer.

You will find, too, that this way you can really save money.

Why not phone us today and have us call for your next washing? We know you'll be glad you made the trial.

The Gift That Means So Much

You have probably someone to whom you will make some little gift as a remembrance of some happy occasion in their lives. It may be a birthday, an anniversary or some other occasion. Whatever the occasion, you'll find just the gift you're looking for right here and at such a reasonable price that you'll be most agreeably surprised.

Come in and shop. Let's get better acquainted.

O'BRIEN'S

MILK IS THE BEST BALANCED FOOD

Milk—pure milk—contains all the nutriment that can be found in any other food that's known. There's something for brain, muscle, bone and flesh building contained in such pure milk as we are delivering every morning.

Nature selected milk for the first natural food. Why don't you drink more of it?

Clearfield Dairy Co.

SALE OF CUT GLASS BASKETS

When you see these cut glass baskets that we are offering at the price, you'll wonder how we can sell them so cheaply.

It was a lucky bit of buying on a recent trip and we hasten to pass the good fortune along to you. They're good glass and the cutting is very good. There's a variety of designs.

IF YOU SQUINT YOU NEED GLASSES

There should be no such thing as a "squint." But if you have to squint and screw up your eyes to read an ordinary newspaper, you should come and let me examine your eyes.

I'll tell you whether you need glasses at once.
